Light Vehicle Obscuration Smoke System

LVOSS

Description

The Light Vehicle Obscuration Smoke System (LVOSS) is a self-defense smoke and riot control device externally mounted on the host vehicle. It consists of grenades, M7 dischargers to fire the grenades, and installation kits to mount the dischargers on vehicles.

Mission

The LVOSS provides both obscuration and non-lethal capabilities to light vehicles in order to enhance crew member and vehicle survivability.

Capabilities

Users

US Marine Corps, US Army

Status

Production and Deployment
