

Contamination Indicator Decontamination Assurance System

CIDAS

Description

Contamination Indicator Decontamination Assurance System (CIDAS) will provide contamination indicator/decontamination assurance technology and applicator(s) for visually indicating traditional nerve and blister chemical warfare agents and non-traditional agents on tactical vehicles, aircraft, ships, crew-served weapons, and individual weapons that may have been exposed to chemical contamination in hostile and non-hostile environments.

Mission

Reduce manpower, water, and decontamination requirements as well as exposure hazard to Warfighters performing immediate, operational and thorough decontamination while increasing decontamination efficiency.

Capabilities

- Material Contamination Mitigation

Users

USSOCOM, US Marine Corps, US Army, US Air Force

Status

Engineering and Manufacturing Development - Anticipated Fielding: FY 2021 Q4
